

Datasheet: 5684-1000

| Description: | SHEEP ANTI ESCHERICHIA COLI J5 LPS |
|---------------|------------------------------------|
| Specificity: | ESCHERICHIA COLI J5 LPS |
| Format: | Serum |
| Product Type: | Polyclonal Antibody |
| Isotype: | Polyclonal IgG |
| Quantity: | 1 ml |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|-------|-----|----|----------------|--------------------|
| ELICA | _ | | | |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using the appropriate negative/positive controls.

| Target Species | Bacterial |
|-----------------------------|--|
| Product Form | Serum - liquid |
| Preservative Stabilisers | 0.09% Sodium Azide (NaN ₃) |
| Immunogen | Heat inactivated Escherichia coli J5 (Rc mutant; ATCC) |
| Specificity | Sheep anti <i>Escherichia coli</i> antibody recognizes the J5 mutant of <i>E. coli</i> 0:111 which lacks the enzyme uridine diphosphate glucose 4-epimerase and therefore produces an incomplete LPS, deficient in galactose and all the sugars distal to the central polymers. The J5 mutant has no O-specific chains and its endotoxin remains as the core LPS containing lipid A, N acetyl glucosamine, 2-keto-3-deoxyoctonate, heptose and glucose (a composition similar to that of the Rc strains of <i>Salmonella</i>). |
| Storage | Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use. |

Shelf Life 18 months from date of despatch.
